SUMMARY

I'm a web dev student at VIPS, Delhi (IP University), and I enjoy building cool stuff for the web. Lately, I've been diving into projects using Next.js, Node.js, Tailwind CSS, and MongoDB. I'm always exploring new tools, breaking things, fixing them, and learning more about how web apps really work. It's a journey and I'm loving it.

EXPERIENCE

Aurum Protocol

<https://aurum>

I worked with the team at Aurum Protocol on strategic planning, where I shared ideas that helped launch a new feature. This feature boosted platform adoption by 15% in the first three months.

PROJECTS

Inkshelf - Online Book Reading Platform

- Developed a full-stack web application that allows users to browse, read, and manage a collection of digital books in an interactive and responsive interface.
- Designed a clean, user-friendly UI using Tailwind CSS and optimized performance with server-side rendering (SSR) in Next.js for faster load times.
- Integrated dynamic book loading and categorized browsing using MongoDB queries, enhancing the user's ability to discover and access content efficiently.

Tune-Together - Synchronized Music & Chat platform

- Real-time Synchronized Playback: Enabled multiple users to listen to the same music simultaneously, ensuring a shared and seamless listening experience.
- User-friendly Interface with Tailwind CSS: Designed a responsive and visually appealing UI using Tailwind CSS for an intuitive music-sharing experience.
- Integrated Chat Functionality: Implemented real-time chat allowing users to communicate while listening to music together, enhancing social interaction.

Blogspot - Interactive Blog & Post Sharing Platform

- Dynamic Content Creation: Built a full-featured blogging platform where users can create, edit, and delete blog posts with rich text support.
- Responsive UI with Tailwind CSS: Designed a clean, mobile-friendly interface using Tailwind CSS to enhance readability and user engagement.
- User Authentication & Post Management: Integrated secure user login and personalized dashboards to manage blog posts and user-specific content.

EDUCATION

B.Tech - Computer Science and Engineering

Vivekananda institute of professional studies - ipu - New Delhi

2024-2028

SKILLS

Language : javascript

Frameworks : Next.js, React.js, Tailwind.css, Node.js, Express js

Tools : Postman, Vercel, Git, GitHub, Linux

Database : MongoDB
